The general fund is used primarily for the education program. Special revenue funds are used to account for monies restricted to a specific use by law. Capital projects funds are used to account for financial resources to acquire or construct major capital facilities (other than those of proprietary funds and trust funds) and to account for revenues from SAVE. A debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Proprietary funds account for operations of the school district operated similar to private business, or they account for the costs of providing goods and services provided by one department to other departments on a cost reimbursement basis. Fiduciary funds are used to account for monies or assets held by the school district on behalf of, or in trust for, another entity. The account groups are the accounting records for capital assets and long-term debt.

The Board may establish other funds in accordance with generally accepted accounting principles and may certify other taxes to be levied for the funds as provided by state law. The status of each fund must be included in the annual report.
