Teacher Quality Committee Minutes
June 16th   2:00 – 3:00 pm
Zoom meeting

Absent: Ashley Weaver
Meeting Called to order at 2:05

1. TQ Budget
   - Review 19-20 budget: did not spend budgeted amount on HRS conference so there will be carry over

2. Professional Learning
   - End of the year PL – Ryan Rydstrom shared pre-assessment (959) and post-assessment (450) data, looks like improved learning on Google and SEL, teachers & admin were happy with flexibility and self-paced learning
   - Plans for Preservice – hasn't been planned yet, working on topics (process for return to learn plan, SEL, Instruction, Digital Literacy, preparing to support students & Staff self-care) New Teacher Preservice planning has started and is being developed for virtual, in person , or a hybrid of those two

3. Fund request for building HRS teams – TQ money has always set aside 8 hours for Building HRS teams to plan SIP goals, this year the ask is an additional 8 hours for SEL training. It was decided that the additional 8 hours will not use TQ funds but instead will use Phase IV budget.

4. Course Approvals
   - **Using Restorative Practices in the Classroom to Maximize Learning and Minimize Disruptions (approved online vote 4-29-20)** This 15 hour, two-day training will explore the importance and benefit of restorative practices, describe proactive strategies and teach participants how to implement them in the classroom, and provide hands-on exercises for small impromptu circles and restorative chats that resolve conflicts.

   - **Google Tools in the Classroom (for Fall) (approved by vote 6-16-20)**
   In this course, participants will explore and learn tools in G Suite for Education to empower themselves and students with digitally engaged learning opportunities for critical thinking, collaboration, communication, and creativity to meet learning objectives. Specific applications such as Google Classroom, Slides, Docs, Forms, Meet, and Jamboard will be highlighted. Tasks and activities will be differentiated to meet the needs of all participant tech levels. Participants will apply their knowledge to create and implement digital lessons using Google tools for in-person and online classroom settings.

5. Items for Future Agenda

Meeting adjourned at 2:45.
