

# Exploring Art Through Science Workshop Series

Register online at [www.easterniowaartsacademy.org](http://www.easterniowaartsacademy.org)

## Finding Fibonacci

Tuesday, January 11th 3:15-4:45

Grades 6-12

Teacher: Heather Wagner

Discuss the golden ratio, what the Fibonacci sequence is, how it works, and where to find it in the world around you.

## Exploring Alcohol Inks

Monday, January 3rd 4:30-6:00

Grades 3-5

Teacher: Shirley Darland

Miss Shirley will teach students not only how to create their own one-of-a-kind artwork, but she'll explain the science behind why it works!

## Lemon Volcanoes

Saturday, January 8th 12:00-1:30

Grades 3-5

Teacher: Emma Hodges

Create a cool watercolor-style painting using lemon volcanoes made from just a couple of ingredients!

## Borax Crystals

Saturday, January 15th 12:00-1:30

Grades 3-5

Teacher: Emma Hodges

Grow your own colorful crystals in fun designs while learning about the chemical reaction that makes it possible!

## Ziploc Ice Cream

Monday, January 10th 4:30-6:00

Grades K-2

Teacher: Shirley Darland

Make your own ice cream in a Ziploc bag while learning about mixing colors!
