#### STUDENT ASSESSMENT

Objective assessment of student achievement is an essential part of instruction which guides and documents student growth towards District curricular standards, evaluates individual and program needs, and identifies strengths and weaknesses of curriculum. Assessment is an ongoing process, *that is both formative and summative*, and consists of both formal and informal measures of individual and groups progress.

A comprehensive testing program is maintained to evaluate the education program of the District and to assist in providing guidance or counseling services to students and their families.

As part of a program funded by the United States Department of Education, no student is required to submit, without the prior consent of the parent or student (if the student is an adult or emancipated minor), to surveys, analysis or evaluation which reveals information concerning:

- Political affiliations; or beliefs of the student or student's parent;
- Mental or psychological problems of the student or the student's family;
- Sex behavior or attitudes;
- Illegal, anti-social, self-incriminating or demeaning behavior;
- Critical appraisals of other individuals with whom respondents have close family relationships;
- Legally recognized, privileged and analogous relationships, such as those of lawyers, physicians and ministers;
- Religious practices, affiliations or beliefs of the student or student's parent; or
- Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

It is the responsibility of the District to collect and evaluate subjective and objective data regarding the progress of individual students. These data should be interpreted and reported by a responsible certified employee to persons with a legal right to the information.

#### RELIGION AND THE SCHOOLS

As the contribution of religions to civilization is one of the crucial keys to understanding human history and development, the study of religious history and traditions should be part of the school curriculum and can play a vital role in enhancing an understanding among people of different religious backgrounds and beliefs. Such study should give neither preferential nor derogatory treatment to any single religion or to religion in general, and should not be introduced or utilized for devotional purposes. Furthermore, no religious belief or non-belief should be promoted by the school district or its employees.

Criteria used to guide academic inquiry in the study of religion should seek the same objectivity and educational effectiveness expected in other areas of the curriculum. In addition, materials and activities should be sensitive to America's pluralistic society and should educate rather than indoctrinate. All instructional and other school-sponsored activities should meet the three-part test established by the Supreme Court to determine constitutionality: 1) the activity must have a secular purpose; 2) the activity's principal or primary effect must be one that neither advances nor inhibits religion; and 3) the activity must not foster an excessive governmental entanglement with religion.

### **Pertinent Fact(s)**:

In 2019, CRCSD implemented a virtual desktop and application environment to support student applications for Project Lead the Way and Adobe Creative Suite. The virtualized environment allowed students and staff to access certain Windows-based applications from Chromebooks and other devices. Due to increasing usage of the system, there is a need to expand licensing in order to accommodate the growth.

#### **Recommendation:**

It is recommended that the Board of Education approve the Amended Agreement between the Cedar Rapids Community School District and Dell Servers and Virtualization Licensing for the 2021-2024 School Years.

### **BOARD GOVERNACE**

**BA-22-272** Resolution – Support of Public Schools (Cindy Garlock)

Exhibit: BA-22-272.1-2

**Action Item** 

### **Pertinent Fact(s):**

The Board of Directors is asked to consider approval of the Resolution that states and believes public schools provide a strong educational environment for Iowa's children and vouchers, if enacted, would put this environment at risk directing resources away from those schools to private schools who are not subject to the same rigorous scrutiny for their use of taxpayer resources.

### **Recommendation:**

It is recommended that the Board of Education approve the Resolution and authorize the Board Secretary to forward copies of the enacted Resolution to Iowa state legislators, the Director of the Iowa Department of Education, and the Governor of the State of Iowa.

### **VOUCHERS RESOLUTION**

Director	introduced the Resolution hereinafter set out and moved
its adoption; seconded by Directo	or The President of the Cedar Rapids
Community School District Board	d of Directors put the question upon the adoption of said
Resolution and, the roll having b	een called, the following Directors voted:
Aye:	
Nay:	
Whereupon the President declare	ed said Resolution duly adopted as follows:

### RESOLUTION

WHEREAS, the legislature will look at enacting vouchers; and

WHEREAS, the Board, in consultation with its community, has determined that the Iowa legislature should not enact vouchers, and should continue to promote and fully invest in Iowa's public schools, more specifically:

- Use public dollars for public schools. Period.
- The public's investment should be used to support public community schools which are open to all students regardless of race, religion, gender, socio-economic status and disability, not for a new entitlement program for parents who choose private education.
- Public funds require public accountability and transparency.
- Public schools are overseen by a publicly elected citizen governing board, are required
  to report academic results to the general public, have an annual public financial audit,
  and be transparent with all expenditures and decision-making. Private and religious
  schools are not held to that same public standard.
- Taxpayers have a right to know how their funds are being used, but are left in the dark about the use and impact of voucher funds.
- A slippery slope toward a costly and expansive voucher program: This voucher program may start small, but as we've seen in other states, once a program is established, it is easy to expand. This will pull more resources away from public schools.

WHEREAS, the Board believes that public schools provide a strong educational environment for Iowa's children and vouchers, if enacted, would put this environment at risk directing resources away from those schools to private schools who are not subject to the same rigorous scrutiny for their use of taxpayer resources.

NOW, THEREFORE, be it resolved by the Board: Passed and approved this 28th day of February, 2022.

Board President, Cedar Rapids Community School D	istrict

FCI greater than 110% - To	r1			

Elementary schools are separated by Tier purely based on the percentage in the Facility Condition Index (Page 83).

In order to create flexibility where the elementary site Re-Investment opportunities occur, a tiered system has been applied. The tiering system is created as a guide to help determine which projects should be completed. The determination of which site is in a tier could be modified to fit Academic, Culture, or Economic (ACE) variables.

The "Tier" system created is based on the Facility Condition Index (FCI) per building. The FCI is based on the square footage of each building and the total amount of money needed to repair the building to the standards of the State of Iowa. Although a school may be ranked higher in the "Facility Cost Index" (Page 89), a different school may be in a higher tier due to its size and total needs.

Tiers are a guideline, they are flexible to adjust for the Community Hub conversations.

### **Elementary Supposals**

#### 1. Arthur/Garfield

- Consider a new build on the annex area of Arthur
- Consolidate Arthur/Garfield attendance areas
- Repurpose Arthur and Garfield buildings...work with community on right buyers for historic preservation purposes and best outcome when selling those buildings

#### 2. Harrison/Madison

- Gather a subcommittee to discuss possibilities to combine Harrison and Madison attendance areas.
- Considerations: renovate and add an addition on Harrison; new build on Madison site, review attendance areas for current students—if concentrated population is at Harrison, consider that as a priority; work with historical team on potential renovation project; RFP architects to create potential solutions for this project.

### **Elementary Supposals**

#### **Future Projects (post 2024-25)**

- 1. Erskine/Grant Wood
  - Where would the new build be?
  - Will there be a need for an East Side early learning center by 2024-25...repurpose one of these buildings for Early Learning?

#### 2. Hiawatha/Nixon

- Hiawatha growth will have clearer projections
- Viola might need more space
- Nixon needs facility work

#### 3. Hoover
