About Live Like Laiken

Live Like Laiken is a non profit with the goal of helping families of pediatric cancer patients. From offsetting expenses to donating to cancer research. Laiken was a 10 year old who brought light into everyone's lives. She was theatrical and creative and an all around good person. She fought sarcoma for 6 months only to be diagnosed with AML shortly after. She passed away June 18, 2022 with her family by her side. Live Like Laiken wants to give as many resources and information to those struggling with this disease.

Philosophy

Live Like Laiken has been created to offer assistance and support, as well as raise funds, for other families dealing with pediatric cancer. Our goal is also to help doctors and researchers by donating to organizations that focus specifically on pediatric cancer research.

Raising awareness for pediatric cancer is essential. Only 4% of the millions raised for cancer is directed towards pediatric cancer research. *Scan QR code to donate.*
