| <p>Three (3) proposals were received and all three (3) vendors were invited to two (2) rounds of interviews for further consideration based on the quality of the technical submission. A cross-functional team of seven (7) scored the proposals which included District staff, building principals, a community business partner, a board director and a parent volunteer. The RFP evaluation committee recommends the board award summer and wrap-around programming to Champions LLC for a term of one (1) year with options for renewal. Improvements for communication and performance monitoring with metrics will be identified and included in a forthcoming agreement.</p> | | | | |
