## FREE PERFORMANCE

With excerpts from our 24-25 SEE THE MUSIC season, this year's tour explores how we can *see the music* and visualize the invisible: from coding and choreography to sound waves and virtual reality.

## FAMILY STEM ACTIVITIES

Investigate free STEM activities before the performance while learning how the universal language of music and movement can make abstract concepts come to life.

## MEET THE PROFESSIONALS

From dancers to scientists, audiences will explore career connections and hear from inspiring experts with opportunities for q&a sessions and unique speakers at each tour stop.

## STATEWIDE PARTNERSHIPS

Programming partners across the state include the NASA Iowa Space Grant Consortium, the Science Center of Iowa, Iowa PBS, Bruce More and local organizations.
